**Clause Number: Q033**

**Effective: 03/25/2019**

**Page 1 of 1**

### **BDS BAC5114 NC PROGRAMMING AND MACHINE CONTROLS SPECIFICATIONS- CONTRACTUAL AND PROCESS CONTROL REQUIREMENTS**

Hardware / part requirements associated with this PO require conformance to BAC5114 process control requirements.

Prior to any initial BAC5114 Specification manufacturing activity:

- Supplier must have completed technical and process control capability assessment with Supplier Management, Engineering and Supplier Quality.

During manufacturing activity and prior to initial BAC5114 Specification delivery:

- Supplier must provide Quality record / documentation (e.g., evidence of conformance) to ensure process control requirements execution.
- Holes manufactured per BAC5114 Specifications may be subject to PS20722 Qualified Processor List (QPL) requirements for special plugging when required on product definition.

Suppliers providing product in conformance with BAC5114 Specifications are subject to the assessment by Buyer to confirm continued compliance to requirements.
