STATIC SHIELD PACKAGING - NON-ESD SENSITIVE GOODS

Goods procured under this contract, although not considered Electrostatic Discharge (ESD) sensitive, will be associated with ESD sensitive goods in stock and manufacturing processes and therefore shall be packaged as follows:

Seller shall ensure:

- Each item is packaged in static shield barrier material. Items such as contacts, terminals, sleeves, junctions, etc., can be packaged collectively unless otherwise required by drawing.
- Each package is heat sealed. Packages shall be free from non-conductive or static generating wrapping or cushioning material.
- Static shield packaging conforms to the requirements of MIL-PRF-81705, Type III barrier material.

Note: Packaging personnel for these goods need not be ESD certified and ESD marking requirements are not applicable.
